When you stop receiving monthly benefits, premium must again be paid when due.

If you work or participate in a rehabilitation program while disabled, reimbursement may be provided for up to \$400 per month for eligible family care expenses incurred by you for each eligible family member during the first 24 months of benefit payments.

Moving Expense Incentive

If you participate in a rehabilitation program while disabled, reimbursement may be provided for expenses incurred to move to a new residence if recommended as part of the rehabilitation program.

Rehabilitation Program Incentive

If you participate in an approved rehabilitation program while disabled, we will increase your monthly benefit by 10%.

Work Incentive

If you work while disabled and receiving monthly benefits, you may receive up to 100% of pre-disability monthly earnings, including family care expense reimbursement, rehabilitation incentive, return-to-work earnings and other income benefits. After the first 24 months following your return to work, we will reduce your monthly benefit by 50% of the amount you earn from working while disabled.

How is disability defined under this plan?

You are considered to be disabled when, due to a sickness or as a direct result of accidental injury, you are unable to perform each of the material duties of your own occupation, and are under the care or supervision of a licensed physician receiving appropriate care and treatment from a duly licensed physician as described in your certificate and complying with the requirements of such treatment. Please see the certificate of insurance for details.

Does this plan include own occupation protection?

Yes. Own occupation means the occupation in which you are regularly engaged in at the time you become disabled. For physicians, own occupation means the specialty in the practice of medicine in which you were engaged just prior to the date disability started.

When does the coverage become effective?

Your coverage will begin on the 1st of the month following the date your enrollment form is approved and your premium has been paid. You must be actively at work on the date insurance is to take effect; otherwise, the insurance will take effect on the date you return to work. Issuance of coverage or benefit payments may depend on the answers given in the enrollment form.

How long can my coverage continue?

Your coverage can continue as long as you pay your premium when due, remain a member, have not reached age 75, remain in an eligible class, the insurance continues for your class, you do not cease to be actively at work for reasons other than disability, the participating association continues to participate in the trust and the policy remains in force. Please see the certificate of insurance for details.

Pre-existing condition means you received medical treatment, care or services for a diagnosed condition, or took prescribed medication for a diagnosed condition in the 3 months immediately prior to the effective date of coverage, and the disability caused or substantially contributed to by the condition begins in the first 12 months after the effective date of coverage.

1. You must be a member of the American Society of Anesthesiologists to qualify for this insurance plan.

2. Actively at work means that you are performing the substantial and material duties of your own occupation for full pay. This must be done at your place of business, or a location to which such business required you to travel.

Depending on the amount applied for, a paramedical exam and blood test may be required, which will be scheduled at your convenience. Even if you have a health condition, you still may qualify.
